Mr. Dick Shumway
Sunray Mineral Products
4986 Spanish Valley Dr.
Moab, UT 84532

RE: ML 44815-Clay

Dear Mr. Shumway,

The Trust Lands Administration is in receipt of your application to assign 537.20 acres of land to Mr. Kenneth Westwood. Some of the lands lie within your approved mine-permit area. It is necessary that all mineral exploration and mining disturbances for which Sunray Mineral Products is responsible upon the assigned lands be documented and mitigated before the assignment may be recognized.

In order to expedite a review of this matter it is requested that you submit the following information and documentation to the Trust Lands Administration.

1. A completed production and royalty affidavit as to total quantity of leased substances mined from the leased lands by Sunray Mineral Products and its operators. (A reporting form is enclosed for your convenience.)
2. A current exploration/mine map at a scale of not more than 50 feet to the inch, prepared by or under the direction of a competent land surveyor, mining engineer or geologist, showing the exact location of all drill holes, trenches, pits, excavations and other disturbances by Sunray Mineral Products and its operators upon the leased lands. (Both reclaimed and un-reclaimed disturbances for which the Lessee is responsible should be shown on the map.)

Please contact me if you have any questions or if I may be of assistance

Sincerely,

John T. Blake
Mineral Resources Specialist
